PROFESSIONAL SUMMARY

Computer Science graduate with experience in IT service desk operations, technical support, and system troubleshooting. Skilled in Python, PHP, MySQL, HTML, CSS, Git, and database-driven application development. Experienced in Active Directory administration, VPN support, and enterprise IT environments.

TECHNICAL SKILLS

Python
PHP
HTML
CSS
JavaScript
MySQL
SQL Server
GitHub
XAMPP
Visual Studio Code
ServiceNow
Active Directory
VPN Support
Microsoft Outlook
BitLocker
Hardware & Software Troubleshooting

PROFESSIONAL SKILLS

- Problem Solving
- Analytical Thinking
- Technical Communication
- Team Collaboration
- Active Listening
- Cross-Cultural Communication
- Data Analysis
- Database Management
- Google Sheets

PROJECTS

Automated Employee Performance Evaluation System (AEPES)

Link: <https://github.com/nexus1201/AEPES>

Tech | PHP, MySQL, XAMPP, Visual Studio Code

- Designed, developed, tested, and deployed a web-based employee performance evaluation system from concept to implementation.
- Built role-based authentication and access control for administrators, supervisors, and employees.
- Designed and managed the MySQL database for employee records, evaluations, and reporting.
- Developed automated reporting and monitoring features that reduced manual processes and improved operational efficiency.
- Implemented system debugging, validation, and optimization to ensure performance and reliability.

Space Shooter Game

Link: <https://github.com/nexus1201/pygame-space-shooter>

Tech | Python, Pygame

- Designed and developed a 2D Space Shooter game using Python and the Pygame library.
- Implemented player movement, enemy spawning, collision detection, scoring mechanics, and game-over conditions.
- Applied object-oriented programming (OOP) principles to manage game entities and behaviors.
- Integrated sprite animations, sound effects, and visual assets to enhance gameplay experience.
- Debugged and optimized game performance to ensure smooth and responsive controls.
- Utilized Git and GitHub for version control and project management.

Pygame Chess

Link: <https://github.com/nexus1201/pygame-chess>

Tech | Python, Pygame

Developed a fully playable chess game featuring legal move validation, checkmate detection, stalemate handling, and turn-based gameplay.

PROFESSIONAL EXPERIENCE

HCL Technologies Philippines, Inc. | IT Service Desk Senior Analyst | Sept 2025 – Present

- Manage Active Directory user access and enterprise support.
- Troubleshoot Outlook, VPN, Virtual Desktop, BitLocker, and hardware issues.
- Handle IT asset replacement, addition, and decommissioning requests.
- Diagnose hardware problems involving desktops, laptops, printers, and scanners.
- Support Cisco IP phone connectivity and other end-user technical concerns.

TELUS Digital | Jun 2019 – Aug 2025

Senior Sales Representative | July 2022 – August 2025

- Engaged with prospective and existing customers through inbound and outbound communications to promote products and services.
- Identified customer needs and recommended tailored solutions to achieve sales objectives and customer satisfaction.
- Managed sales opportunities from lead generation through order processing and appointment scheduling.
- Consistently achieved performance targets by utilizing effective negotiation, objection handling, and closing strategies.
- Analyzed customer trends and sales data to identify opportunities for business growth and process improvement.
- Maintained accurate customer records and sales activities using CRM tools and company systems.

Technical Support | June 2021 – July 2022

- Diagnosed software, hardware, networking, and connectivity issues.
- Delivered technical support through phone and email channels.

Customer Service Representative | June 2019 – July 2022

- Maintained high customer satisfaction through effective communication and problem resolution.
- Assisted customers with account management, billing concerns, and service requests.
- Built strong customer relationships through professionalism and active listening.

EDUCATION

Arellano University

Bachelor of Science in Computer Science

Graduated: June 2026

CERTIFICATIONS

CompTIA A+ • CompTIA Network+ • CompTIA Security+ • ITIL 4 Foundation • Data Analytics Fundamentals (SAS)

CORE STRENGTHS

Software Development • Problem Solving • Debugging • Database Management • Technical Support • Team Collaboration
